Hello...

Your 'excellent' GCSE journey starts here with us at St Joseph's College...

Welcome to St Joseph's College, Ipswich; a place where your child's future is a personal journey.

We know how important Years 10 and 11 are to you and your children, which is why we offer a unique and outstanding selection of expertly delivered courses.

As one of the few education providers that operates its GCSEs using an 'open block' timetabling system, St Joseph's is able to offer students the subjects that really matter to them. The opportunity for students to study across a wide range of subjects, with no restrictions on what they choose, provides a positive, individual and enthusiastic environment, leaving them to reap the rewards that their achievements will bring.

This booklet is designed to provide you and your child with the opportunity to consider rigorously every GCSE subject offered and allows students to interact by recording what really matters to them. What is it about each subject that makes them happy? What are their aspirations and ambitions? How does each subject relate to their future potential career path?

We have also taken the time to include information on our outstanding Sixth Form provision. We pride ourselves on taking our students on a complete journey with a culture and focus to enable them to be their best.

Please do not hesitate to contact me, the subject teachers or Head of Upper School, if you require further information on anything related to your child's GCSE options.

We look forward to welcoming new and existing students in our Upper School.

Mr S Cinnamon
Deputy Principal

Whatever you're aiming for...

Unique courses, such as Further Mathematics and Computer Science, offered and delivered to students who excel in STEM.

Exclusive 'invitation only' access to Learning Support, where you will receive bespoke tuition to support your learning needs.

The celebration of our scholars, turning young people into prodigies in their specialised areas.

Additional literacy strategies taught alongside core and optional GCSEs, where students and parents are guided through a personal programme that is perfect for them.

Daily after-school tuition clubs across ALL GCSE subjects, providing students with support, revision and extended activities, designed to help them maximise their potential.

...we'll help you reach it.

Enhancing your experience...

Take part in our international student exchanges, through which we have visited Australia, Canada and China.

Immerse yourself in our vast variety of extra-curricular activities, including our nationally award-winning student magazine 'Vox' or join our Debate/Public Speaking societies.

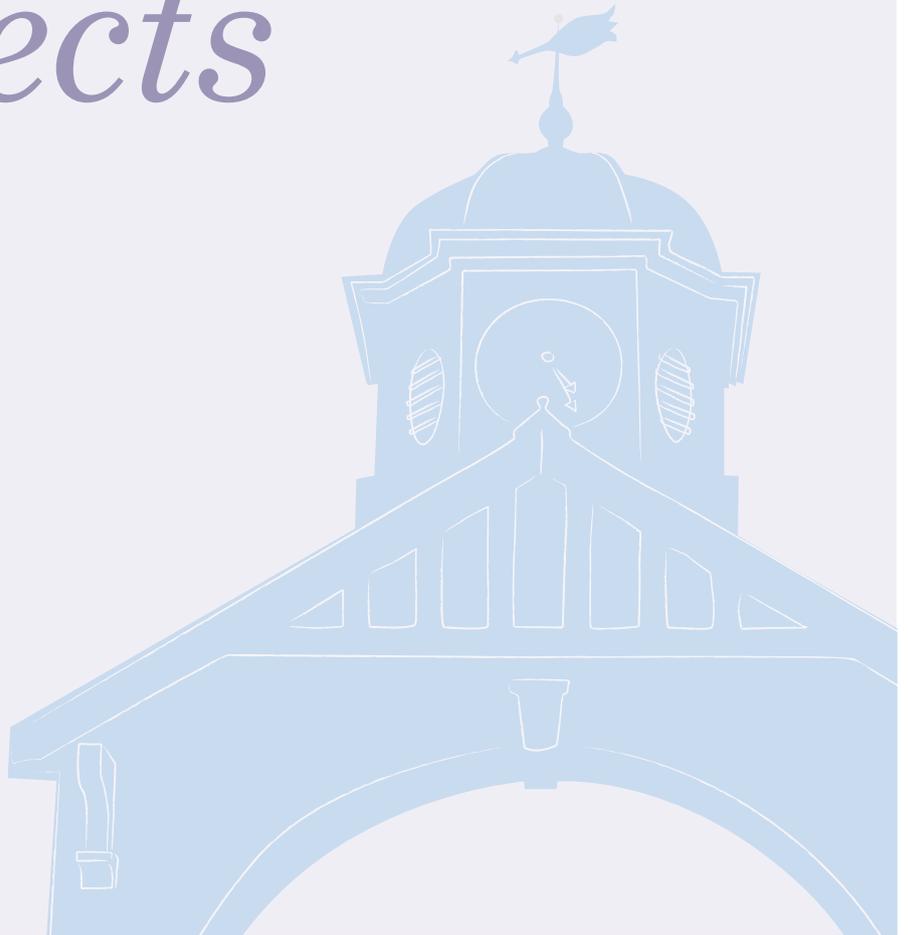

We value everyone's curriculum, which is why no matter what GCSE options are chosen, every child will get access to Physical Education and to Faith, Life & Wellbeing lessons.

Career fairs, guest speakers and regular subject-specific trips will make your GCSE experience a special one to remember, with your future at the heart of the teachers' objectives.

Participation in national and international competitions across all subject areas, increasing your opportunity to enjoy and excel in all of your chosen subjects.

...is at the heart of St Joseph's College.

Compulsory Subjects

Combined Science

Topics

Biology

Bioenergetics & Homeostasis
 Cell Biology & Ecology
 Infection & Response
 Variation & Evolution

Chemistry

Atomic Structure & Periodic Table
 Bonding, Structure & Matter
 Chemical Changes
 Energy Changes
 Organic Chemistry
 Quantitative Chemistry
 Rate & Extent of Reactions

Physics

Atomic Structure
 Electricity & Energy
 Forces & Waves
 Magnetism & Electromagnetism
 Particle Model of Matter

Assessment Information

Examination Board

AQA

Specification Number

8464

Examinations

All six examinations to be sat in summer of Year 11
 2 x Biology papers
 2 x Chemistry papers
 2 x Physics papers
 Each with an equal weighting of 70 marks/16.7%

Grade System

1 - 9 (this course provides **two** GCSE qualifications and students' progress is assessed following the completion of each scientific unit).

What new life skills will I learn?

- You will be confident in carrying out hands on practical tasks and activities.
- You will improve your mathematical skills, knowledge and application.
- You can understand how and why our bodies and planet work the way they do.
- You can boost your teamwork skills and ethics by actively working with others.
- You will be able to improve your own personal lifestyle by making healthy and environmentally friendly choices.

Enrichment & Extra-Curricular Opportunities

- Kerboodle - an online, interactive programme giving students access to support, extensions and activities
- After school GCSE revision sessions
- Science Club
- Visiting CERN, a leading European organisation in nuclear research
- Intensive Science Support Club to support and stretch KS4 students
- Opportunities for students to design experiments to take to primary schools, engaging with the local community

Can't see what you're looking for or have an idea?
We're always excited for fresh, new activities!

Questions & Answers...

English

Topics

Language

Unseen fiction - 19th/20th/21st century
Creative writing - descriptive or narrative
Unseen non-fiction – 19th/20th/21st century
Non-fiction writing to present a viewpoint

Literature

Love and Relationships poetry
Unseen poetry
Modern text - currently studying 'An Inspector Calls'
Shakespeare - currently studying 'Macbeth'
19th century novel - currently studying 'A Christmas Carol'

Assessment Information

Examination Board

AQA

Specification Number

Language: 8700
Literature: 8702

Literature Exams

Paper 1 - Shakespeare, 19th century text (40%)
Paper 2 – Modern text, Love and Relationships Poetry (60%)

Language Exams

Paper 1 - Reading/Writing fiction (50%)
Paper 2 - Reading/Writing non-fiction (50%)

Grade System

1-9 (students are assessed regularly using examination criteria).

What new life skills will I learn?

- To identify and interpret key themes, ideas and information.
- To read and evaluate for different purposes.
- To draw inferences and justify these with evidence.
- To write accurately, with sophistication and ambition.
- To compare and contrast texts using summaries and synthesis.
- To analyse how form and structure affect a written text.
- To plan and deliver presentations.

Enrichment & Extra-Curricular Opportunities

- Theatre trips (Norwich and London)
- BoxClever Shakespeare productions
- 'A Christmas Carol' performance
- Award-winning magazine and journalism
- International creative writing tournaments
- Celebration of Languages (Arts Week)
- Debate club

Assessment Information

Examination Board

Edexcel

Specification Number

GCSE (9–1) – 1MA1

Examinations

Three written question papers, worth equally a third:

Paper 1 - Non-calculator

Paper 2 - Calculator

Paper 3 - Calculator

Grade System

1 - 9 (end of unit tests are completed after each topic of study to assess and support students' progress).

What new life skills will I learn?

- You will be able to use mental arithmetic skills to enhance your everyday life.
- You will increase your ability to draw accurate conclusions and make decisions.
- Your ability to solve problems will increase and allow you to understand the 'why'.
- You can improve your powers of communication and understanding, whatever the need.
- You can use logical skills to approach complex problems and solve them accurately.

Enrichment & Extra-Curricular Opportunities

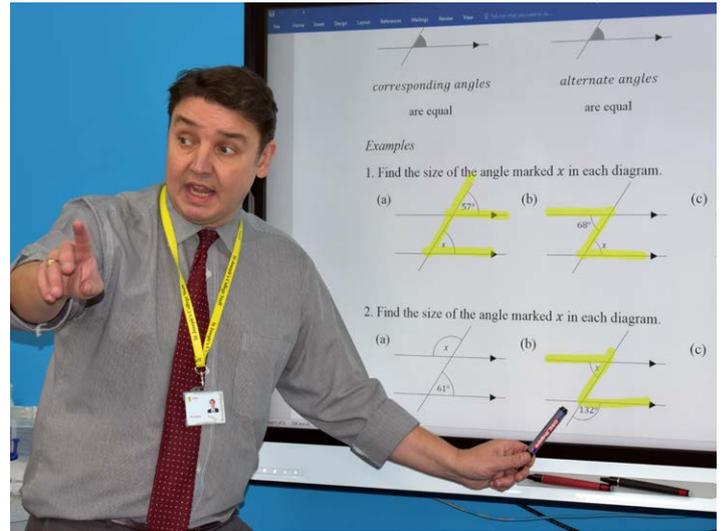

- Paid-for subscription to MyMaths (online site providing superb revision, extension, extra help)
- Digital Shortcut Codes to support assignments and homework
- KS4 GCSE Maths Clinic
- UK Mathematics Challenge – individual and team competitions
- KS4 GCSE after school prep support
- Externally led, interactive Mathematic workshops
- National and international STEM participation and competitions

IGCSE English as a Second Language

Topics

Year 10 - New Headway Pre-Intermediate Coursebook

Describing friends and family
 Writing about holidays and your hometown
 Emails, letters and correspondence
 Writing book and film reviews

Year 11 - Cambridge IGCSE English as a Second Language Coursebook

Leisure and travel
 Education and work
 People and achievements
 Ideas and the modern world

Assessment Information

Examination Board

Cambridge International Examinations

Specification Number

0511

Examinations

Reading, Writing, and Listening mock exams - end of Year 10 and in December of Year 11. Final exams for Speaking, Listening, Reading and Writing take place between March and May during Year 11

Grade System

This qualification is graded 1 - 9, 9 being the highest.

What new life skills will I learn?

- You will be able to take notes, learning both short hand and long hand methods.
- Your presentation skills will support you in any qualification or job you pursue.
- Your self-confidence will grow and strengthen as your language improves.
- You will enhance your self-study and independent learning skills, required for any further qualification.
- Your writing skills will be appropriate for any purpose, tone or audience, essential for your future aspirations.

The Options

Art & Design

Topics

Year 10

Project 1: Organic form, surfaces and patterns
 Project 2: Portraiture and independent project

Year 11

Independent project
 Controlled assignment
 External exhibition

Assessment Information

Examination Board

AQA

Specification Number

8201

Component 1 - 60%

The portfolio must include: a sustained and developed project in response to a subject, theme, task or brief evidencing the journey from initial engagement with an idea to the realisation of intentions

Component 2 - 40%

An externally set assignment by AQA, giving students seven different starting points/titles to select and demonstrate their creative response. This is assessed through a 10 hour sustained period of study

Grade System

This qualification is graded 1 - 9, 9 being the highest.

What new life skills will I learn?

- This will allow you to build and maintain practical, critical and contextual skills.
- Your exposure to new media, technologies and processes will be invaluable.
- Being able to explore different materials and processes will allow you to be versatile and flexible.
- Your ability to maintain focus for long periods of time will be strengthened and enhanced.
- Your communication with peers and ability to review your own and others' work will prove to be essential in your future.

Enrichment & Extra-Curricular Opportunities

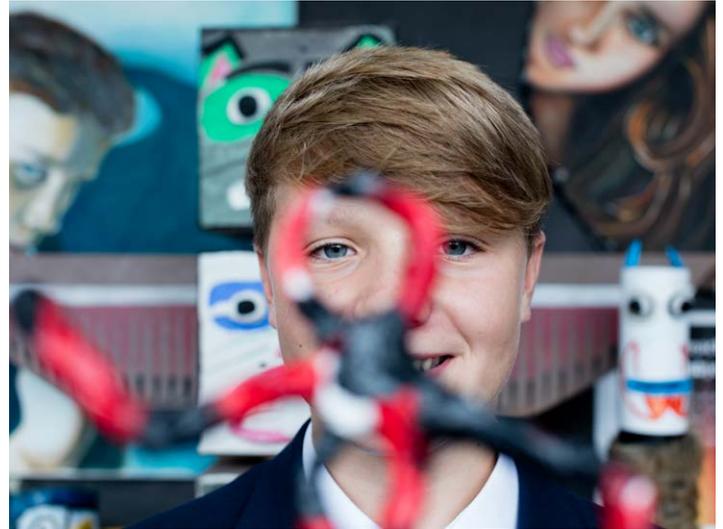

- Study days at the Fitzwilliam Museum and London galleries
- Artists' workshops during the College's annual Arts Festival
- Student Arts Focus Group and the Art Scholars' Society
- Materials for all projects undertaken in curriculum time
- Open Art Studio
- Young Art Competition
- State-of-the-art digital arts suite
- Art work displayed and celebrated
- International residential art and culture trips

Business Studies

Topics

Year 10

Business Activity (enterprise, business planning and ownership types)
 Marketing (role, research, segmentation and marketing mix)
 People (role, recruitment & selection, communication, motivation & retention and employment law)

Year 11

Operations (production processes, quality, consumer law and location)
 Finance (role, sources, profit & loss and cash-flow)
 Influences on Business (ethical, environmental & economic and globalised business)

Assessment Information

Examination Board

OCR

Specification Number

J204

Examinations

2 x 90 minute examinations based on case studies. There is no controlled assessment or coursework
 AO1- Knowledge skills 35%
 AO2 - Application of knowledge 35%
 AO3 - Analytical and evaluation skills 30%

Grade System

This qualification is graded 1 - 9, with 9 being the highest grade.

What new life skills will I learn?

- You will have the opportunity to enhance your literacy and persuasive skills after producing written arguments.
- You will be able to support your arguments with reasoned, sound and justifiable conclusions.
- Your confidence and abilities in mathematics will flourish and grow.
- Through development of your communication skills you will be able to listen carefully and consider alternative viewpoints and converse confidently and eloquently.
- You will gain an insight into the benefits of reading a range of business-appropriate materials, which will help you to build a wider understanding of the world.

Enrichment & Extra-Curricular Opportunities

- Real-life leading business experts to speak with students and engage in Q & As
- Enterprise scheme in Development Hour to develop financial and employability skills

Creative iMedia

Topics

Year 10

Pre-Production Skills (purpose, planning, production and reviewing)
 Creating Digital Graphics (properties, planning, creation and reviewing)
 Revision for R081 Examination

Year 11 (Two topics to be selected)

Creating 2D and 3D digital characters
 Digital photography, sound and video sequences
 Storytelling with a comic strip
 Creating a multi-page website and interactive multimedia products
 Design and develop digital games

Assessment Information

Examination Board

OCR

Specification Number

J817

Examinations

Module 1: Pre-Production Skills - external written OCR examination 25%

Module 2: Creating Digital Graphics - centre assessed over approximately 10 hours 25%

Coursework: Centre assessed over approximately 10 hours 50%

What new life skills will I learn?

- You will be equipped with the skills to be able to research, plan and review products and work.
- Working with others so that creative ideas and concepts can be effectively produced.
- You will be confident in the process of taking something from design to fit-for-purpose products.
- This will encourage and enhance your independence and creativity.
- Exposure to industry experts will increase your communication skills and confidence.

Enrichment & Extra-Curricular Opportunities

- Trips to the Warner Bros. Studio, Watford, and Sky Studios, Isleworth
- Visits to BBC Studios and Media City
- Opportunity to join the national award-winning online school magazine 'VOX'
- 1:1 computer suite with green screen room
- Virtual reality equipment and software
- DSLR cameras and digital video cameras
- A range of photo-editing, sound-editing and animation software
- Competitions - Cyber Discovery, Shine Media Awards, Co-Space Robot Cup

Engineering

Topics

The course comprises core units that underpin the knowledge and skills that are valued in the engineering sector. One core unit focuses on essential knowledge, and the other core unit focuses on applying essential vocational skills. Students must complete the **two core units**, and a **choice of optional units** to reach a total of **120 Guided Learning Hours**. This BTEC First Award has units that your centre assesses (internal) and one unit that Pearson sets and marks (external).

Assessment Information

Examination Board

Pearson Edexcel

Specification Number

Pearson BTEC Level 1/Level 2 First Award in Engineering

Core Units

The Engineered World (externally assessed) 30

Investigating an Engineering Product (internally assessed) 30

Optional specialist units

Health and Safety in Engineering (internally assessed) 30

Engineering Maintenance (internally assessed) 30

Engineering Materials (internally assessed) 30

Computer-aided Engineering (internally assessed) 30

Machining Techniques (internally assessed) 60

Electronic Circuit Design and Construction (internally assessed) 60

How is the course assessed?

The course is assessed through a combination of practical assignments and a one hour externally assessed onscreen test.

What new life skills will I learn?

The qualification provides an engaging, robust, broad-based introduction to engineering. It gives students the theoretical and practical skills required by employers and by higher and further education providers. It presents knowledge, skills and understanding in a meaningful work-related context, to allow learners to understand theory and application. It also provides an excellent basis for entry to a wide range of jobs in engineering to include apprenticeships.

Enrichment & Extra-Curricular Opportunities

- Weekly STEM Club
- Links with local industry
- Visits by industry professionals
- STEM trips

Questions & Answers...

Topics

Year 10

Conflict and Tension: The First World War, 1894-1918
 Britain: Health and the People, c1000 to the present day

Year 11

Germany, 1890-1945: Democracy and Dictatorship
 Norman England, c1066-c1100

Assessment Information

Examination Board

AQA

Specification Number

8145

Examinations

Formal, in-class assessments take place at the end of each sub-section
 Paper 1 - Understanding the Modern World (written exam, 2 hours) 50%
 Paper 2 - Shaping the Nation (written exam, 2 hours) 50%

Grade System

This qualification is graded 1 - 9, 9 being the highest.

What new life skills will I learn?

- You will develop skills in extended writing and producing substantiated judgements.
- Your extended reading skills will grow, allowing you to read challenging and demanding texts.
- You will learn to create and defend logical oral arguments with excellent negotiation skills.
- You will be able to evaluate case studies and evidence, supporting your critical thinking skills.
- Your confidence in using subject-specific terminology and vocabulary, a skill required in any profession, will strengthen and flourish.

Enrichment & Extra-Curricular Opportunities

- History Club
- Debate Club
- KS4 History Surgery - providing intense GCSE revision and exam preparation
- Google Classroom for instant access of up-to-date lesson resources, tasks and extension activities
- Local and international trips to visit significant, historical locations and landmarks
- Model United Nations Club - recent visits have included First World War battlefields in France and Belgium, visits to partner school in Germany for collaborative history projects

Topics

Areas of Study:

Musical forms and devices
 Music for ensemble
 Film music
 Popular music
 Performing
 Composing
 Appraising

Assessment Information

Examination Board

Eduqas (WJEC)

Specification Number

601/8131/X

Examinations

Performing - two pieces, internally assessed and externally moderated 30%
 Composing - two compositions, internally assessed and externally moderated 30%
 Appraising - written exam on four areas of study (1 hour and 15 minutes) 40%

Grade System

This qualification is graded 1 - 9, 9 being the highest.
 Students should be playing at a musical Grade 2 prior to beginning their GCSE, with the aim of them working towards a minimum of Grade 4.

What new life skills will I learn?

- Your confidence, public speaking and presentation skills will increase.
- You will enhance your mathematical and statistical skills, applicable to many careers and your everyday life.
- You will be able to organise, plan and structure projects, both as an individual and a team.
- You will develop an awareness of contrasting forms of media and music, accepting cultural and personal choices and preferences.
- You will learn to reflect upon and evaluate your own performance, strengthening your independence and thinking skills.

Enrichment & Extra-Curricular Opportunities

- Trips to musical theatre performances in London
- Weekly rehearsals for choirs and ensembles
- ABRSM and Trinity examinations
- Music theory, aural and technology clubs
- Participation in the annual Arts Festival and College Musical
- Involvement in the Suffolk Festival of Performing Arts and the Colchester Rotary Festival
- Bespoke practice rooms with state-of-the-art equipment
- An iMac and iPad suite
- An acoustically-treated recording studio, featuring a live room and control room

5. _____

Textiles

Topics

Year 10

Project 1: Surfaces

Project 2: Culture and Identity

Year 11

Independent Project: Selected from a range of themes

Externally set assignment

External exhibition

Assessment Information

Examination Board

AQA

Specification Number

8204

Component 1 - 60%

Students will create a portfolio, which must include a sustained project evidencing the journey from initial ideas to the realisation of intentions. The portfolio will showcase a range of creative textile techniques

Component 2 - 40%

Students respond to their chosen starting point from an externally set assignment paper, demonstrating their creativity through a developed response, and evidencing all four assessment objectives. This is assessed through a 10-hour sustained period of study

Grade System

This qualification is graded 1 – 9, 9 being the highest.

What new life skills will I learn?

- You will develop skills in new technologies, decision making, team work, independence, planning and organisation.
- Gain understanding of the creative process and how this can help you problem solve.
- Explore a range of traditional and modern textile techniques.
- Your communication skills will be developed and improved.
- You will gain an insight into the fashion industry and possible career opportunities.

Enrichment & Extra-Curricular Opportunities

- Artists' workshops during the College's annual Arts Festival
- External textile artist workshops
- Student Arts Focus Group and the Art Scholars' Society
- Open Art Studio
- State-of-the-art Digital Arts Suite with Mac technology and the latest Photoshop technology
- National and International residential art and culture trips

Careers

How we support you with your future:

- A wide range of pathways that provide the most appropriate academic route for you.
- We tailor our academic programme to suit your needs and regularly review it to ensure the most up-to-date subjects are available to you.
- We allow you to 'road-test' your options in the first month of your timetable, ensuring that you are happy, confident and enlightened with your choices.
- We celebrate our team of expert teachers, who have proudly helped students to secure places at Oxbridge, US Ivy League colleges and other outstanding universities, as well as on to vocational courses and into specialist careers and professions, including the Armed Forces, Police and apprenticeships.

The way we embrace our holistic approach towards Sixth Form studies actively encourages students to achieve and leave St Joseph's with strong leadership, team-work and communication skills.

What you can go on to achieve...

Here are just some of the many things our students have gone on to accomplish:

- Member of Parliament
- Leading comedian and actor
- International investigative journalist
- England and Scotland rugby players
- Award-winning university business students
- New Zealand Test cricketer
- Current Oxford University undergraduate
- British Ambassador to Ireland, Iran and Turkey
- Famous author
- World-renowned musicians
